

## INDEX TO VOLUME 44

### ARTICLES

- Achieving and Under-Achieving High School Boys of High Intellectual Ability, A Comparative Study of, Edward Frankel, 281-289.
- Acquiring Knowledge and Attaining Understanding of Children's Scientific Concept Development, John Edward Garone, 104-107.
- American Education and Our Post-War Hysteria, Soviet Technology, Mark Graubard, 331-345.
- Annual Meeting of the Association for the Education of Teachers In Science, 248-249.
- Characteristics of Honors Section Students In Natural Science at a State University, Some, Irvin J. Lehmann and Clarence H. Nelson, 267-273.
- Characteristics of Honors Section Students In Natural Science at a State University: A Follow-Up, Some, Irvin J. Lehmann, 273-280.
- Charles Edgar Montgomery, Clarence M. Pruitt, 67-70.
- Children's Questions: Using A Wonder Box In the Third Grade, Basing Instruction in Science on, Ben. A. Bohnhorst and Prentiss M. Hosford, 146-149.
- Clarifying Language in Science Education, Benjamin J. Novak, 321-328.
- Comparative Study of Achieving and Under-Achieving High School Boys of High Intellectual Ability, A, Edward Frankel, 281-289.
- Comparison of Institutions in the Graduate Training of Ph.D. Chemists by Occupational Specialization, A. B. R. Siebring, 294-297.
- Comparison of Two Methods of Teaching Biology at the College Level, Luther Colyer, 52-58.
- Concepts of Light and Sound in the Intermediate Grades, Pearl Astrid Nelson, 142-145.
- Concepts in the Area of Alternating Current Electricity, R. M. Helms, 313-321.
- Constitution and By-Laws of the National Association for Research in Science Teaching, 217-220.
- Council for Research in Education, Clarence M. Pruitt, 162-166.
- Crisis in Science Education Research, The, Ellsworth S. Obourn, 19-22.
- Deceased Members of NARST, Clarence M. Pruitt, 238.
- Design of Objective Test Items To Evaluate Thinking Ability In Science, Floyd Monaghan, 358-366.
- Developing a Scrambled Book and Measuring Its Effectiveness as an Aid to Learning Natural Science, Chester A. Lawson, Mary Alice Burmester, and Clarence H. Nelson, 347-358.
- Development of an Instrument for Evaluation of Elementary School Science, The, Evan C. Richardson, 112-118.
- Distinguished Service in Science Education, Ellsworth S. Obourn, 7-10.
- Ellsworth S. Obourn Letter to Vaden W. Miles, 18-19.
- Experiments and Demonstrations in Elementary School Science, 75-76.
- Financial Report NARST 1959, Clarence M. Pruitt, 16.
- Financial Report NARST 1960, Clarence M. Pruitt, 213.
- For the Record, Clarence M. Pruitt, 238-244.
- Guidance Needs in Scientific and Technical Education, William F. Brazziel, Jr., 202-207.
- Harry Allen Cunningham, Clarence M. Pruitt, 3-6.
- Hawaiian Summer Workshop in the Teaching of Science, Jewell Garner, 130-134.
- High School Backgrounds of Ph.D.'s, Samuel Strauss, 45-51.
- Humanistic and Science Composite Scores as Related to Intellectual Curiosity and Persistence, Kenneth E. Anderson and Tilghman Aley, 171-176.
- Implementing Research Into Action, Kenneth E. Anderson, 178-187.
- Implications for Elementary Science, Katherine E. Hill, 78-79.
- Implications of Research for the Preparation of Primary Teachers, Some, Clark Hubler, 107-110.
- Implications of Research for the Training of the Junior High School Science Teacher, Some, Herbert A. Smith, 37-39.
- Implications of Science Education Research on the Training of Intermediate Grade Elementary School Teachers, Clarence H. Boeck, 35-36.
- Improving Instruction in Elementary Science, John Edward Garone, 97-104.
- Index, 417-420.
- James Archer Keech, Clarence M. Pruitt, 346-347.
- John Adam Hollinger, Clarence M. Pruitt, 329-331.
- Justification for the Use of Chemicals in Agriculture, George C. Decker, 408-413.
- Kenneth Eugene Anderson, Clarence M. Pruitt, 157-162.
- Memorandum to Executive Committee, Vaden W. Miles, 235-236.
- My Classroom Situation, Ullainee Downing, 80-81.
- NARST Luncheon, 236.
- NCTEPS Conference 1959, Joseph D. Novak, 227.
- Need for New Laboratory Experiences in Alternating Current Electricity, The, R. M. Helms, 305-313.
- Needed Research in Science Education, William C. Van Deventer, 40-44.

- 1958-1959 Report for Council For Elementary Science International, 74.
- North Carolina Curriculum Study, The, I. E. Ready, 91-97.
- Official Minutes of the Thirty-Second Annual Meeting of the National Association for Research in Science Teaching, Clarence M. Pruitt, 14-16.
- Official Minutes of the Thirty-Third Annual Meeting of the National Association for Research in Science Teaching, Clarence M. Pruitt, 231-235.
- Palmer Oliver Johnson, Kenneth E. Anderson and Clarence M. Pruitt, 167-170.
- Parental Attitude and Teaching Influence on College Attendance as Related to National Merit Scholarship Test Scores, Kenneth E. Anderson and Billy Aldridge, 176-178.
- Past Meeting Places of NARST, Clarence M. Pruitt, 238.
- Past Officers of NARST, Clarence M. Pruitt, 236-237.
- Preparation Helps the Teacher Teach for Pervasive Objectives, What?, 110-112.
- Preparation of Science Instructors for Community Colleges, Nathan S. Washton, 39-40.
- Presentation of Citations, February 13, 1960, Nathan S. Washton, 229-231.
- Principles in Alternating Current Electricity Which Are Important to High School Teachers of Physics, R. M. Helms, 297-304.
- Problem-Solving: A Comparison of the Expressed Attitudes with the Classroom Methodology of Science Teachers in Selected High Schools, Thomas G. Aylesworth, 366-374.
- Problems in Developing Elementary Science, 76.
- Proper Emphasis on Science and Mathematics in the Elementary School, W. Richard Hargrove, 89-91.
- Program for the Improvement of Science and Mathematics Teaching in the New Jersey Public Schools, Fred T. Pregger and Irwin H. Gawley, 262-267.
- Program of Council for Elementary Science International, 71-73.
- Program of the Thirty-Second Annual Meeting of the National Association for Research in Science Teaching, 11-13.
- Program—33rd Annual NARST Meeting, 214-216.
- Relations of NARST with the Council for Elementary Science International, John G. Navarra, 224.
- Relationships of NARST with the U. S. Office of Education, Paul Blackwood, 221-222.
- Relationships With the American Association of Colleges for Teacher Education, Loren T. Caldwell, 228-229.
- Report of Relations of U. S. Office of Education to National Association for Research in Science Teaching, Ellsworth S. Obourn, 22-23.
- Report of Recorder for Group III—Unresolved Issues and Problems in Science Education Research and Next Steps for NARST, W. Edgar Martin, 30-32.
- Report of the Association for the Education of Teachers in Science, Reuben G. Pierce, 251-260.
- Report of the Committee on Educational Trends, Jerome Metzner and Abraham Raskin, 225-227.
- Report of the Research Coordinator, Ellsworth S. Obourn, 223-224.
- Report to the NARST on the Relationships with the American Association for the Advancement of Science for the Year 1958-59, A. George Greisen Mallinson, 25-29.
- Research in Science Teaching, Sixth Annual Review of, Ellsworth S. Obourn and Clarence H. Boeck, 374-399.
- Review of the 1958-59 Activities of the National Association for Research in Science Teaching, Thomas P. Fraser, 17.
- Role of the Colleges in Curriculum Improvement in Elementary Science, The, Joe Zaffaroni, 86-89.
- Science Activities For Children, A Workshop, B. John Syrocki, 125-130.
- Science and Mathematics Backgrounds of Elementary School Teachers Yet to Complete the Bachelor's Degree, Maurice Finkel, 149-151.
- Science Education Through Elementary School Camping, Extending, Jerry Beker, 138-142.
- Science Experiences in a Sixth Grade, Irene M. Lammers, 81-83.
- Science Interest Grows, Robert D. MacCurdy, 401-407.
- Science Teacher's Contribution to the Improvement of Reading, James Schiavone, 400-401.
- Scientific Womanpower: A Neglected Resource, Alan T. Waterman, 207-213.
- Scrambled Book and Measuring Its Effectiveness as an Aid to Learning Natural Science, Developing A, Chester A. Lawson, Mary Alice Burmester, and Clarence H. Nelson, 347-358.
- Selecting, Developing, and Validating Laboratory Experience Units in General Biology for Perspective Elementary School Teachers, Considerations in, B. John Syrocki, 121-125.
- Sixth Annual Review of Research in Science Teaching, Ellsworth S. Obourn and Clarence H. Boeck, 374-399.
- Soviet Technology, American Education, and Our Post-War Hysteria, Mark Graubard, 331-345.
- Summary of the Friday, February 20, 1959 Session on "Next Steps for NARST," Edward K. Weaver, 33-35.
- Summer Institute in Biology, Some Experiences Teaching A, Doris F. Falk, 198-202.
- Summer Science Camp, A, Lincoln Pettit, 134-138.
- Teachers College, Columbia University, 249-250.
- Teachers College Standards in Chemistry: What are the Facts?, Leland L. Wilson, 260-262.
- Teaching of Science in a Liberal Arts Program, Mark Graubard, 187-194.
- Teaching of Science in Elementary Schools by Recent Graduates of Atlantic Christian College as Related to Their Science Preparation, The, Jesse Parker Tyndall, 118-121.
- Teleology In College Biology Textbooks, Mervin E. Oakes, 60-63.
- Television in the Science Classroom, John H. Grate, 84-85.
- Trends in Science Education—1958, Abraham Raskin and Jerome Metzner, 23-25.

- Tribulations of the Science Textbook Author, A. M. Winchester, 194-198.  
 What Preparation Helps the Teacher Teach for Pervasive Objectives?, 76-78.  
 William Ray Teeters, Clarence M. Pruitt, 245-247.
